Dog *breaks* Into Family Home!

A dog down on Meow St. broke into a family's home yesterday.

The dog *shattered* and went right through their front window. one of our reporters went down on the scene the day of and heres what they and the local law Enforcement had to say about it.

The reporter had this to say while they were onsite “It looks pretty bad from here, the window is all broken. I'm just surprised that dog managed to smash through the window!”

Yeah it looks pretty bad, the whole front window is *shattered* as the dog ran into it. The family was very relaxed for the amount of damage the animal had caused and didn't want to press charges on the dogs owners.
